Projects

Sky Chat Messages (Messaging Web Application)

(Feb 2023 – May 2023)

- Work on messaging web application that is useful for sending Realtime messages.
- It is a full stack web application. React and NextJs is used in frontend.
- Prisma and MongoDB is used in backend to create efficient and scalable database.
- Social Login is also enabled through Google and Github. Pusher is used for real time messaging and notification.
