## PERSONAL PROJECTS

### ToDo List App. (04/2022 - 05/2022)

- Created a simple frontend To-Do list website using React.js.
- LINK - "<https://todolist-akash.netlify.app/>"
- Github repo - "<https://github.com/akashisonlinenow/ToDo-List-App>"

### My music app (11/2020 - 01/2023)

- Created a music app website using html, sass(CSS with superpowers) and bootstrap5.
- Express.js is used in Backend.
- Github repo - "<https://github.com/akashisonlinenow/my-music-app>"

## WORK EXPERIENCE

### Front-end Developer

Atri Labs.

12/2022 - 01/2023

At Atri Labs, they are building a new full-stack web development framework. It is a general-purpose framework, designed to build everything from e-commerce websites to internal machine-learning applications. Users can create multi-page applications by building their front end visually and writing their back end in Python or other languages. It is free and open-source.

Achievements/Tasks

- Created frontend part of a Portfolio website as an assignment using HTML and CSS.
- Also got to know about atri framework and got hands-on experience in working on that and creating beautiful websites in just minutes.
- Also got a glance of how UI helps user to create multipages visually and converts their backend into Python.

### Joint Technical Secretary

COMPSA, GECA

06/2021 - 07/2022

Achievements/Tasks

- Got management and leadership skills.
- Communication skills
